## *INTRODUCTION*

**D**oubting Atheism is Volume Two of the  
Atheism & Creation TOPIC SERIES.

This booklet aims question the rationality of  
atheism and reveal why Psalms 14:1 defines atheism as  
being foolish.

This booklet again takes a simplistic, Biblical and  
scientific approach to explaining the reason why all of  
creation has a Creator.

# Is Atheism More Rational Than Belief In God?

Is belief in God rational? Atheists will say that the reason they don't believe in God is because they haven't yet seen the evidence that a God or gods exists.

Atheists go as far as saying that the belief in God or in gods is irrational, delusional, childish and even dangerous.

Indeed whilst many dangerous and strange things have been done in the name of religion, such an argument cannot be used as proof that God does not indeed exist.

No one looks at a painting and wonder if there is a painter. Nor does anyone discover a watch on the ground and wonder if there is a watchmaker. So the question is: why would anyone look at creation and wonder if there is a Creator? Why would anyone look at creation and come to the conclusion that a Creator does not exist? Therefore, is there any rationality behind atheism?

## **Does The Universe Have A Beginning and Where Did It Come From?**

Most scientists believe that the universe had a beginning. Therefore if the universe had a beginning, then there must have been a first cause for that beginning. The

universal law of cause and effect states that for every effect there is a definite cause. Likewise for every cause, there is a definite effect.

If the word “**nothing**” can be defined as *the absence of space, matter and time*, then would it be *rational* thinking to believe that the universe came from nothing? Would it be rational to believe that *nothing* can create *something*?

Has anyone ever seen nothing create something?

However, many atheists would have people believe that the universe came from nothing. For example, well-known cosmologist and atheist Lawrence Krauss is on record for teaching that the universe came from nothing. He is not alone in believing this theory.

So is this belief that the universe came from nothing really rational? Has there ever been a recorded and observed scientific experiment to reveal that indeed something visible and tangible can be derived or produced from nothing? The answer is NO. There is no evidence that nothing can create or produce something. Yet many atheists *irrationally* believe so.

### **Does Everything In The Universe Exist By Chance / Accident?**

Atheists would have people believe that the universe existed by mere chance or by accident over billions of years, and that life came into existence through the process of evolution.

Imagine there was a big explosion. What are the chances that a sudden explosion of gases and chemicals will

produce water, life, creatures, houses, cars, buildings and so on? If this question seems *irrational* – that’s because it *is* irrational to believe that a big explosion can create anything as complex as the universe.

Atheists traditionally believe in the Big Bang theory. However recently a Forbes article has certain scientists claiming a *new theory* that the Big Bang wasn’t the beginning after all.

Again the atheist must be challenged with the rationality of whether or not everything happens by chance or accident. For example, is a painting or a wrist watch created by chance or accident?

So how is it possible then that something as complex as the universe can be the result of chance? How can it be possible that every single life-form on earth is the result of an accident?

If the universe and everything in it are the result of an accident – then why does it seem that all things are subject to scientific, mathematical and natural laws. The fact that laws of nature exist – this means that there must be a law-giver. Laws cannot exist without a law-giver. It would be *irrational* to believe that life and the universe are a product of random chance.

### **Why Don’t Atheists Know The Origin of Life?**

The question that most atheists cannot answer is the issue of the origin of life. If atheists cannot answer the question of: what is the origin of life – then how can they claim that there is no God? How can they prove that God

is not the source of all life?

Would it be rational to believe that non-life can create life? Is there scientific and observable evidence of non-life creating living organisms or any kind of life?

There is however undeniable evidence that life gives birth to life – or that life is sourced from a life source.

Therefore if the pattern is undeniable and true that life creates life – then it should be rational to belief that all life on earth began with an intelligent living Being – God. So would it really be rational to believe that life originated from a non-living source? Would it really be rational to believe that a non-living source can create anything as complex as the universe or the life-forms on earth?

### **Is There Evidence of a Creator?**

Even though the atheist has never seen or spoken to Leonardo da Vinci, the atheist believes that Leonardo da Vinci painted the Mona Lisa.

It would be *irrational* if the atheist claimed that Leonardo da Vinci never ever existed at all – and that the Mona Lisa, with every detailed brushstroke and colour was designed and created from nothing – or by mere random chance.

**Romans 1:20** says *“For His invisible attributes, namely, His eternal power and divine nature, have been clearly perceived, ever since the creation of the world, in the things that have been made. So they are without excuse.”*

According to **Romans 1:20**, the evidence of a Creator is

in the fact that creation exists. Just as a painting is evidence of a painter, the universe and all of creation is evidence that there is a Creator who created the universe. We may not have visibly seen the Creator but we see evidence of His existence through His creation.

**Psalms 14:1** says that *"The fool says in his heart, 'There is no God'..."*

This scripture is not saying that an atheist is unintelligent. However it is exposing the irrationality of atheism. If anything that is man-made has its creator – then why not believe that nature and all of the universe have a Creator?

So is the atheist rational in his/her disbelief in the existence of God? Does it make sense to believe that a creation of any kind can exist without a creator? Is it rational to believe that nothing can create something? Does it make sense to believe all of life on earth is the result of one big accident?

Certainly not.

### **A Message To Atheists**

Be open to the rationality and the sensibility that a Creator of the universe exists. Remember that there is no scientific or observable evidence that nothing can create something. Be open to the fact that for every effect, there is a cause. Be open to the fact that the universe was not created by accident.

## 8 Questions For Atheists

Having a chat with atheists can be very interesting. They claim to be more intellectual than Christians and they perceive Christians as being merely silly believers of a non-existent God.

However below are some questions for atheists.

Ironically, most atheist avert answering these questions. Hopefully these questions can help atheists discover that life is beyond what we merely see in the natural – but to understand that even though they doubt God’s existence – they need to also look into the holes in their own belief system.

### QUESTION 1

**Is Atheism a LACK of Belief in God or a BELIEF that there is no God?**

Most atheists generally claim that atheism is a *lack* of belief in God or gods. This definition implies that atheists *do not* have the ability to believe in God. This definition implies that atheists are *incapable* of believing in God. Is this true? Do atheists lack or have an inability to believe in God?

The Bible however explains that atheists do not lack a belief – but rather atheists *suppress* their belief in God.

Every human being has a measure of faith and has the ability to believe. In every human being is the desire to worship someone or something. However the case with atheists is that they suppress God as the object of belief and replace God with anti-God belief systems.

**Romans 1:20-23** says the following pertaining to atheism and the atheists suppression of belief in God: *For since the creation of the world His invisible attributes are clearly seen, being understood by the things that are made, even His eternal power and Godhead, so that they are without excuse, 21 because, although they knew God, they did not glorify Him as God, nor were thankful, but became futile in their thoughts, and their foolish hearts were darkened. 22 Professing to be wise, they became fools, 23 and changed the glory of the incorruptible God into an image made like corruptible man — and birds and four-footed animals and creeping things.*

Therefore atheists not only suppress the existence of God in their lives but through the theory of evolution they have replaced God with the worship of animals and worship of themselves. The theories of evolution is what has become the atheist's religion.

Therefore atheism cannot be defined as a *lack* of belief because the atheist simply *chooses* to *suppress* his belief in God.

Atheism is a *choice*. It is a belief system.

## **QUESTION 2**

### **If God Exists Would You Become A Christian?**

If the atheist were given all the “proof” and “evidence” that they needed pertaining to the existence of God, would he/she become a Christian?

This is a question that only individual atheists can answer themselves. However, the several atheists that I have personally asked this question have continued to either avert directly answering the question or continue to rebel against the idea that God exists.

The truth is, it takes humility to accept God. Pride is the seed of atheism. Atheism is the belief that life is “better” without God or that life does not need God. Atheism is a belief that man does not have to be accountable to a Greater Power than himself.

Therefore to accept God into one’s life requires personal humility and a sense that one is accountable to somebody greater than himself.

If you’re an atheist and you’re reading this take the time to ask yourself “If God Exists, Would You Become A Christian?”

## **QUESTION 3**

### **How Do You Determine What’s Right & What’s Wrong?**

To the atheist: Where does your sense of morality come from? How do you determine what is acceptable and what is unacceptable?

For example – if there are 2 atheists in a room: One atheist believes that abortion is wrong and another atheist believes that abortion is good. Which of these atheists is correct? Which one is right and which one is wrong?

For the Christian the question of morality and right or wrong comes from the Scriptures / the Bible. But for the atheist, the morality issue is very murky and always changing. For example, with the atheist, something as queer as bestiality can be wrong today and then the same act might be okay with him in the future. After all, atheists view themselves more as animals than humans. So the queer concept of bestiality is an open view even in their mindset.

**2 Timothy 3:16-17** says *“All Scripture is given by inspiration of God, and is profitable for doctrine, for reproof, for correction, for instruction in righteousness, 17 that the man of God may be complete, thoroughly equipped for every good work.”*

The issue of right and wrong comes only from one source – God.

## **QUESTION 4**

### **How Do You Deal With Guilt & Sin in Your Life?**

No matter what moral beliefs we may have, all people have felt guilt in their life. Every person including the atheist has felt that they have done wrong in their life and may have felt guilt or remorse or depression as a

result.

The question however is: How do atheists deal with guilt and sin in their life? What do atheists do to remove guilt or sin in their hearts?

It is said that atheists are more likely to commit suicide than theists. This is believed due to the fact that the atheist belief system does not adequately account for purpose or meaning of life. Hence in the perception of the atheist life is not only temporary but it lacks no definitive meaning.

In the eyes of God & the Christian however, God has given meaning and purpose to people's lives. Every person can find their meaning in life through a relationship with God.

God says the following in **Isaiah 43:7** – *“Everyone who is called by My name, Whom I have created for My glory; I have formed him, yes, I have made him.”*

God created us to glorify Him. Glorifying God means that we acknowledge His existence and He is the object of our faith and worship. It also means that we live in order please and serve our Creator.

Without God, the issue of guilt and sin cannot be properly or adequately dealt with.

In **Isaiah 43:25-26** God says *“I, even I, am He who blots out your transgressions for My own sake; And I will not remember your sins. 26 Put Me in remembrance; Let us contend together; State your case, that you may be acquitted.”*

God sent Jesus Christ to deal with our sin problem (**John 3:16**)

## QUESTION 5

### Do You Act According To What You Believe or According To What You Lack In Belief?

If atheism is simply a lack in belief in God, then do atheists act according to what they believe in – or do they act according to their lack of belief.

Everyone *believes* in something or someone. Our beliefs drive us. What we believe in affects our life and ultimately our destiny.

The truth is – we don't have to see something in order to believe in it. All humans have the ability to believe.

Atheists have *no evidence* that non-life can create life but yet they *believe* it.

Atheists have *no evidence* as to *how* the universe was created yet they *believe* their theories.

Atheists have *no evidence* dinosaurs turned into birds but yet they *believe* it.

The Bible describes belief / faith as the following: **Hebrews 11:1** *"Now faith is the substance of things hoped for, the evidence of things not seen"*.

Therefore the atheist does not behave according to what he lacks belief in – but he behaves according to what he believes in even if that belief is wrong.

The source of our faith however should not be our own intelligence – but the source of our faith should be God and His word.

True faith does not come by hearing the word of man but

true faith comes by hearing the word of God.

**Romans 10:17** says *“So then faith comes by hearing, and hearing by the word of God”*.

## QUESTION 6

### **Can You Prove HOW the Universe Was Created?**

There is no evidence pertaining to the evolutionist explanation for origin of life. All evolutionist explanations for the origin of life and the creation of the universe remain merely as theories, presumptions and hypothesis. The reason is because there is no scientific proof that for example, life may have evolved from non-life or that life resulted due to a “big bang”.

Therefore atheists cannot prove how the universe was created. It actually takes faith to believe some of the theories that evolutionists have suggested.

The Bible is clear as to who and how the universe was created. God created the universe.

**Genesis 1:1-2** – *In the beginning God created the heavens and the earth.*

## QUESTION 7

### **Can You Prove That God Does Not Exist?**

When asked this question atheists argue that it's not up to them to provide evidence for proof of God. The problem however with their argument is that if they claim God doesn't exist then they should provide the evidence.

If atheists have never visited every planet; or if they have never been to every part of the universe; or if they have never seen every star in outer space – then how can they prove that God does not exist?

Atheism in itself is merely a *claim* – it is *not* a fact.

Atheism is not merely a lack of belief – it is a *nonfactual claim* that God does not exist because there is no proof that He doesn't exist.

**Psalm 14:1** – *The fool has said in his heart, "There is no God." They are corrupt, They have done abominable works, There is none who does good.*

## QUESTION 8

### **Do You Know Where You're Going When You Die?**

The atheist cannot prove that heaven and hell does not exist. However, what a tragic day it will be when the atheist discovers the existence of hell because there is no going back and there is no second chance.

Does heaven and hell exist? Yes these places do.

**Ecclesiastes 3:11** says *"He has made everything beautiful in its time. Also He has put eternity in their hearts, except that no one can find out the work that God does from beginning to end"*.

God has put eternity in our hearts. This means that in our mind or soul God has placed within us a spiritual longing or desire for eternal fulfillment inside of us; God has put that sense inside us that there is more to life than the mere physical and natural things that we touch and

see.

Every person whether Christian or atheist has an eternal desire or a search for purpose and meaning that is beyond the present. The issue is our interpretation of these desires and how we apply these desires.

Our sense of longing and meaning should be directed towards God who is the source. Without God there is no meaning or fulfillment in a person's life.

Ultimately when people die, where they go will be an indication of who or what their source of fulfillment was.

Jesus is our fulfillment. Without Jesus Christ we are nothing. Jesus came that we may have abundant life.

**John 10:10** – *“The thief does not come except to steal, and to kill, and to destroy. I have come that they may have life, and that they may have it more abundantly”*

# 5 Reasons Why Atheism Is Foolish

**Psalms 14:1 NKJV – The fool has said in his heart, “There is no God.” They are corrupt, They have done abominable works, There is none who does good.**

If a person doesn't believe in God, the Bible says that such a person is a fool.

It doesn't matter how educated the atheist might be; whether he/she has a degree in rocket science or if he/she has all the science degrees known to man – if such a person does not believe in God – the word of God classifies that person as a foolish person.

Now, why would even the most educated atheist be seen as a fool or be viewed as being unwise for not believing in God? Below are various reasons why the word of God is 100% true and correct according to **Psalms 14:1** when it states that atheism is foolish.

## 5 FOOLISH THINGS THAT ATHEISTS BELIEVE

### 1. Atheist Don't Appreciate That Every Design Has A Designer

Recently I was researching to find out as to what were some of the most complex or complicated machines or devices that man has ever built to date.

One of these complex machines that peaked my interest

was the Airbus A380. In order to build just ONE Airbus A380 this single aircraft requires about 4 million parts, with 2.5 million part numbers produced by 1500 companies from 30 countries around the world.

However my most favourite complex machine is the Large Hadron Collider. It is the most expensive and complex machine ever built. The LHC was built in collaboration with over 10,000 scientists and engineers from over 100 countries, as well as hundreds of universities & laboratories. The LHC is the largest single machine in the world which lies in a tunnel 27 kilometres (17mi) in circumference, as deep as 175 metres (574ft) beneath the Franco-Swiss border near Geneva, Switzerland.

The majority of people, myself included, probably do not know or understand the precise complexities or the effort of the intelligent people and minds that had to work together in order to design & build such massive & complex machinery.

The Airbus A380 was intelligently & deliberately designed by intelligent minds & each of the 4 million parts that make that aircraft have a specific purpose in the make-up & design of that plane.

The LHC too – as complex as it is, was intelligently & deliberately designed through the cooperation of over 10,000 intelligent minds who come from over 100 countries.

Now – if we were to use the same thought process or the same thought pattern that the atheist uses in relation to

creation, it would be very easy to understand why atheism is extremely foolish and why atheists are regarded as being fools by God. Somehow, the atheist cannot appreciate the complexity but yet harmonious aspects of nature or the universe and come to the conclusion that there is a vastly superior Being behind creation. They cannot appreciate just the complexity and wonders of the human body but yet foolishly come to a poor conclusion that the human body and human existence as a result is just one big accident.

**Albert Einstein** was quoted as saying *“The human mind, no matter how highly trained, cannot grasp the universe. We are in a position of the little child, entering a huge library whose walls are covered to the ceiling with books in many different tongues. The child knows that someone must have written these books. It does not know who or how. It does not understand the languages in which they are written. The child notes a definite plan in the arrangement of the books, mysterious order, which it does not comprehend, but only dimly suspects. That it seems to me, is the attitude of the human mind, even the greatest and most cultured, toward God. We see a universe marvelously arranged, obeying certain laws but we understand the laws only dimly”*

**Genesis 1:1 NKJV – In the beginning God created the heavens and the earth.**

## **2. Atheists Think Accidents Can Create Complex & Harmonious Systems & Life-forms**

**CS Lewis**, a former atheist said the following: *“If the solar*

*system was brought about by an accidental collision, then the appearance of organic life on this planet was also an accident, and the whole evolution of Man was an accident too. If so, then all our thought processes are mere accidents, the accidental by-product of the movement of atoms. And this holds for the materialists and astronomers as well as for anyone else's. But if their thoughts, i.e, of Materialism and Astronomy are merely accidental by-products, why should we believe them to be true. I see no reason for believing that one accident should be to give a correct account of all the other accidents".*

If I can paraphrase CS Lewis' statement I would say this: It is utter & absolute foolishness to believe that a series of accidents can create a harmonious circumstance.

Accidents do not create harmony. Noise does not create music; Fire does not create ice. If life & the universe is an accident then our very thought processes eg atheism is an accident, science is an accident, the machinery we design & create are accidents.

The atheist thinks he is clever but yet is foolish because he cannot understand that the fact that our solar system is called a "**system**" is because there is a methodology & a harmony to how our solar system works and exists. It's not a chaotic or continuously accidental existence. The system didn't exist by accident or chance. It was created deliberately by God and that's why creation exists.

It would be foolish with all its complexities, its deliberate design and the number of components and parts it takes to build a single Airbus A380 & LHC to assume that there was absolutely no intelligent design or intelligent

mind behind the creation of these machines. What foolishness it would be to assume that there was a big bang explosion of energy and gas and that over a certain period of years the Airbus and the Large Hadron Collider self-existed without the hand of a creator. Atheism denies the existence of God as the intelligent & creative Being behind the creation of life and the universe. Instead the atheist opts to believe that life & the universe exists as a result of an accident and that there was no intelligent Being who deliberately created the universe.

The make-up of the universe is far more complex than an Airbus or an LHC and it would be foolish to think that the universe was not created by an intelligent Creator who is far more intelligent than any human being could ever fathom.

**Romans 1:20 NKJV – For since the creation of the world His (God's) invisible attributes are clearly seen, being understood by the things that are made, even His eternal power and Godhead, so that they are without excuse.**

Just as the existence of the Airbus or LHC are evidence that its manufacturers exist Romans 1:20 explains that the existence of nature & the entire universe are clear evidence that a Creator (God) exists that creation did not just come from nothing or nowhere.

### 3. The Atheist Foolishly Thinks Science Has The Answers To Everything

Can a person learn the German language by reading a mathematics textbook? Can I learn about how a cellphone functions by reading a biology textbook? If a man wanted to learn how to drive a car, would you suggest they read a TV manual?

If the above questions sound absurd it's because atheism avails its foolishness by assuming that science has the answers to all things – including the spiritual & whether or not the spiritual realm exists.

**Science** *is the systematic study of the structure & behavior of the **physical & natural** world through observation and experiment.*

The atheist however reveals his foolish pattern of thinking by assuming that science should be able to study God who is neither physical nor natural.

God is Spirit and He is SUPERnatural. Therefore science is *not* the best means by which a person can learn or observe the nature of God. It would be similar to trying to learn the German language by reading a mathematics book. It's foolish – yet the atheist thought pattern is very similar to this illogic thinking when it comes to God.

The atheist is using science which is the study of the **physical and natural** to disprove the existence of a **spiritual & supernatural** God. What foolishness.

If the atheists truly and genuinely wants to know God then he/she has do a few things that will draw that person to God. For example, genuinely praying,

genuinely seeking to know God, reading God's word (the Bible) and YES – having FAITH that God exists. It's these simple things that enable one to enter from the physical & into God's spiritual realm.

**1 Corinthians 1:18-21** says **“For the message of the cross is foolishness to those who are perishing, but to us who are being saved it is the power of God. 19 For it is written: “I will destroy the wisdom of the wise, And bring to nothing the understanding of the prudent.” 20 Where is the wise? Where is the scribe? Where is the disputer of this age? Has not God made foolish the wisdom of this world? 21 For since, in the wisdom of God, the world through wisdom did not know God, it pleased God through the foolishness of the message preached to save those who believe.”**

Does this mean that people should abandon science? Of course not. Science however only tries though in a limited way to explain the physical creation by a supernatural unseen Creator – God.

**Hebrews 11:3 NKJV – By faith we understand that the worlds were framed by the word of God, so that the things which are seen were not made of things which are visible.**

#### **4. Atheists Don't Know That Atheism is a Belief System**

The atheist will proudly but foolishly tell you that atheism is the non-belief in God or gods. However, I'm

yet to meet or have a conversation with an atheist who doesn't believe in the Theory of Evolution or the Big Bang Theory. Neither evolution nor the big bang can be proved by experimentation or observation.

None of these 2 theories can scientifically explain nor give observable evidence of the origin of life but yet atheists are happy to theorize and hypothesis this issue. Ironically theorizing & hypothesizing both which require a degree of *faith*. Yet *faith* is something that atheists claim not to live by – but they foolishly contradict themselves by applying faith based thinking & hypothesis in their speculations about evolution, the big bang and the origin of life.

The truth is – it takes faith to believe in evolution & the big bang theories.

The reason being that there is no observable scientific evidence that man for example descended from worms called *Xenorturbella bocki* which at some point in time became a type of fish and then later became an ape and finally turned into what we are now – humans. Can the atheist prove that 500 million years ago we were *Xenorturbella bocki* worms? How did they get to “500 million years ago”? What scientific instruments did they use to come up with “500 million years”? Have the atheists studied, observed & experimented a *Xenorturbella bocki* worm change from a worm to an ape-like mammal?

Atheists have no scientific or observable evidence to prove these claims yet cling to the faith or belief that we

descended from a worm type then later apes.

I would personally prefer the following definition of atheism that I once saw on one of the social media platforms: *Atheism is the belief that there was nothing and nothing happened to nothing and then nothing magically exploded for no reason, creating everything and then a bunch of everything magically rearranged itself for no reason what so ever into self-replicating bits which then turned into dinosaurs, birds, trees, fish and the like.*

Despite their reliance on science as the answer to ALL things, atheists lacks any scientific or observable evidence for evolution or the big bang theories. Neither does the atheist have any scientific evidence for the origin of life.

## **5. The Atheist Cannot Disprove The Existence of God**

Absence of evidence is not evidence of absence.

Therefore just because a person has never seen a physical manifestation of God, it does not mean that God does not exist.

There is nobody who is omniscient / all-knowing. We are all limited in our capacity; we are all limited in our understanding; we are all limited in our knowledge.

Yet despite our universal limited capacities, I have found during various debates that the atheist believes that he/she thinks *absolutely* that there is no God. If you ask these atheists such questions as “Have you been to every single planet in the galaxy? Have you been to every single star in the galaxy? Do you know everything there

is to know about every single subject?" the atheist will either try to find a way to skirt the questions or begrudgingly admit that they are indeed limited in capacity & knowledge.

Therefore an atheist *cannot* prove that God does not exist. An atheist has no interest in knowing God – therefore how can He know God? The atheist isn't interested yet he foolishly claims that He doesn't exist to the billions of people who believe and worship God.

## **Conclusion**

So is atheism foolish? Yes it is. God says so through His word in **Psalms 14:1** that the atheist is foolish.

There is no common sense thinking pattern when it comes to atheism as stated in the 5 areas above.

**Romans 1:20** says the atheist is "without excuse" because nature itself testifies that there is a Creator. Just as complex machinery like the Airbus 380 and the LHC did not create themselves – therefore the universe could never have created itself. Common sense thinking should reveal that nature & life exists as a result of an intelligent & mighty Creator.

## 5 Things Atheists Can't Prove

*“Do you have proof for your claim?”* – This is a popular question that most atheists love to ask a Christian believer. Atheists pride themselves in requiring proof for any Biblical view of life, creation and God. However, the interesting irony is that the atheist himself does not have any proof or evidence that disputes various Christian Biblical beliefs.

Does the atheist really lack faith – or does he actually exercise faith?

Atheism is a human opinion – but even opinions can be wrong.

Atheism is a “lack of belief” – but lacking belief in something does not prove that the thing you lack belief in does not exist.

Atheism, just like Christianity requires faith – because faith requires that you believe in things that you cannot always see nor prove.

Christians do not dispute that faith is an important component of Christianity – but the problem is atheists cannot admit their self-deception that atheism itself is a faith or belief system.

In fact, it would be true to say that it takes a great deal of *faith* to become an atheist than it does to believe in God. Atheism itself requires the suspension of reason &

human logic so that the atheist can believe in things that he has neither observed, tested nor proved.

So the atheist needs to be asked this important question: *“Do YOU have proof for your claim?”*

Below are a few of the things that atheists cannot prove and may help reveal that atheism itself does not pride itself in scientific evidence or proof but that atheism is simply an ANTI-GOD FAITH / BELIEF SYSTEM.

## 5 THINGS ATHEISTS CAN'T PROVE

### 1. **Atheists Cannot Prove That There Is No God**

Can the atheist honestly prove that God does not exist? Has he been to every planet in the solar system? Has he been to all the ends of the earth? Has he visited every star in the universe? Has he seen and experienced anything beyond the natural realm? Does he know everything about every subject known to man? Atheists *cannot* prove that God does not exist.

To claim that there is no God is not only arrogant – but it is foolish. **Psalm 14:1** says *“The fool says in his heart ‘There is no God’...”*

Yes of course, the atheist might retort and say: *“Can you prove that unicorns or the spaghetti monster don’t exist”* or *“The burden of proof is on the believer”*.

Atheists consist of less than 4% of the population of

people who believe in the existence of a supernatural deity.

Therefore the burden of proof is not on the majority but it is on the minority. The burden is on the 4% to prove that every other population that believes in the existence of God or the supernatural are “uneducated” as some atheists claim.

Christians do not preach that unicorns, or Spiderman, or that the spaghetti monster created the universe.

Christians speak and preach about the existence of God, a supernatural Being who created the universe.

Christians preach that the natural was made by the Supernatural and that the *evidence* or *proof* of God is seen in the creation itself and that no human being is “*without excuse*” for not believing in God.

**Romans 1:20** says *For since the creation of the world His (God's) invisible attributes are clearly seen, being understood by the things that are made, even His eternal power and Godhead, so that they are without excuse*

## 2. Atheists Cannot Prove That Non-Life Can Create Life

The atheist prides himself in science. Science indeed is a good instrument for understanding the method in which God's creation functions and Christians have no problem with science.

However, neither science nor atheists can prove that *nothing* can create *something*. Atheists pride themselves

in requiring proof or evidence yet there is no scientific observable & testable evidence that non-life can create life.

Many atheists are inclined to believe in abiogenesis which is the theory that living organisms can arise spontaneously from inanimate matter. However, there is no scientific observable proof that abiogenesis is possible. All forms of abiogenesis are neither supportable is there proof or evidence. Yet the atheist currently believes this theory – a clear indication that it takes faith to be an atheist or evolutionist.

If non-life could create life, then this process would not only be historical, but it would be observable in the present time. It could be tested in the labs. To this day we ought to be observing new planets creating themselves out of nothing or new living creatures on the earth creating themselves out of nothing.

Atheists therefore *cannot* prove the origins of life came from non-life.

However the Bible tells us clearly how life originated and from whom life originated.

**Genesis 1:1** says *“In the beginning God created the heavens and the earth”*.

God is the source of ALL life whether seen or unseen. Without God there would be no life. Only a Being more intelligent than creation itself could have created an organized system such as seen in the universe.

### 3. **Atheists Cannot Prove That Evolution Is Occurring In The Present, That It Occurred in The Past & That It Will Occur In The Future**

The truth is this: Evolution is **not** happening now. Yet the atheist would have us falsely believe that evolution happened; evolution is happening and that evolution will happen.

Remember that the atheist prides himself in requiring proof or evidence for various claims. Yet hypocritically, the atheist has no proof that evolution is happening now in the present.

If evolution were a real and observable process then there would be **many** transitional animals, plants or forms that we could observe. We would for example be able to observe an animal that is half-fish and half-bird or an animal that is half-baboon and half-human. I can bet you that such examples sound ludicrous even to the average atheist – and if it does sound ludicrous – it’s because evolution itself is false and ludicrous.

Atheists and evolutionists have concluded that they have “evidence” of one kind of animal transitioning into another kind of animal yet they have no observable proof or evidence of such claims. Therefore the atheist **cannot** prove that evolution happened or is happening. Instead what we can truly see and truly authenticate and observe is what God did in **Genesis 1**.

God made distinct kinds or categories of plants and animals with many varieties in each kind or category. In **Genesis 1:11-25** God made plants, trees, animals, fish

and every living creature according to their kinds and God saw that it was good.

For example **cats** are a kind or category. Yet under the kind / category of cats we have a variety of cats, for example lions, tigers, cougars, cheetahs, domestic cats etc

**Genesis 1:11,12NKJV** – *Then God said, “Let the earth bring forth grass, the herb that yields seed, and the fruit tree that yields fruit according to its kind, whose seed is in itself, on the earth”; and it was so. 12 And the earth brought forth grass, the herb that yields seed according to its kind, and the tree that yields fruit, whose seed is in itself according to its kind. And God saw that it was good.*

**Genesis 1:24-25NKJV**– *Then God said, “Let the earth bring forth the living creature according to its kind: cattle and creeping thing and beast of the earth, each according to its kind”; and it was so. 25 And God made the beast of the earth according to its kind, cattle according to its kind, and everything that creeps on the earth according to its kind. And God saw that it was good.*

#### 4. Atheists Cannot Prove What Will Happen When We Die

Are we just simply flesh and that's it? Besides having a body, do we not also have a soul and a spirit? When our body dies, what happens to our spirit – where does our spirit go?

So the question is this: Is there life after death? The Christians says “Yes” but the atheist says “No”.

Atheists have **no** scientific proof / evidence **against** the belief that man has a soul or spirit.

To deny the existence of a soul or spirit would be like a man thinks that a computer can function without software.

However, remember that the atheist prides himself in having scientific proof and evidence.

Atheists have no scientific evidence or proof that we will become nothing or cease to entirely exist when we die.

Indeed their naturalistic view is that our bodies will simply decay or that the moment we are dead then that is the end.

The Christian believes by faith that he/she has eternal life through Christ and that he/she will be with Christ after physically death. Therefore Christians do not deny their faith.

However, the atheist denies that he has **faith** in the things that he CANNOT prove.

**1 John 5:12-13NKJV** – *He who has the Son has life; he who does not have the Son of God does not have life. 13 These things I have written to you who believe in the name of the Son of God, that you may know that you have eternal life, and that you may continue to believe in the name of the Son of God.*

## **5. Atheists Cannot Prove That They Know About All Things Spiritual**

The atheist may dismiss the Christian & Biblical perception of God and life by labelling Christian views

as being a “fallacy”, “strawman”, “uneducated” and the like. However, the atheist **cannot** prove that he is omniscient and that he knows everything in relation to both natural and supernatural matters.

Science itself is the study of the natural – **not** the supernatural.

By only focusing on studying the creation it would be irrational to presume that the creation does not have a Maker. For example, if a person were to only focus on studying the hardware & software of a computer it would be foolish to conclude that the computer existed without an intelligent inventor.

Yet the atheist has come to the irrational conclusion that all visible things that he sees and studies through the lens of science just simply managed to coherently and systematically exist and function without the hand of an Intelligent Designer.

It takes **faith** to come to such an irrational conclusion.

Yet the irony is that the atheist prides himself in living according to “reason”, “proof” and “evidence” whilst having **no** evidence of his own conclusions.

**Hebrews 11:3** says *“By faith we understand that the worlds were framed by the word of God, so that the things which are seen were not made of things which are visible”*.

The Bible clearly tells us that the natural things we see were made by the unseen / supernatural / spiritual.

Furthermore **Romans 1:20** says *“For since the creation of the world His invisible attributes are clearly seen, being*

*understood by the things that are made, even His eternal power and Godhead, so that they are without excuse”.*

The irony however is that the atheist uses faith and **not** the scientific evidence he prides himself in order to argue against the existence of God and all things spiritual. Many atheists will claim that they used to go to church and that they were “former Christians”. However, no genuine Christian would ever conclude that God does not exist. Therefore the question is: were such “former Christians” actually genuine Christians in the first place?

## **BELIEVE IN GOD**

If as an atheist you are doubting evolution and atheism, it's important to know that God DOES exist and God does NOT reject anybody who comes to Him.

An atheist can learn about God and discover the wonderful plan that God has for his/her life by converting to Christianity. It's through the Christian faith that we learn about the grace and mercy of God and the love that He has towards us through the life, death and resurrection of Jesus Christ for our sins. Jesus paid for our sins (**John 3:16**).

The gift of eternal life and the opportunity to have a relationship with God is open to whosoever will be believe.

# DO YOU WANT TO BE A CHRISTIAN or A FOLLOWER OF JESUS CHRIST?

1. **ACKNOWLEDGE:** "For all have sinned and fall short of the glory of God" (Romans 3:23).

This means that we have all broken God's laws and God's 10 Commandments like those mentioned in Exodus 20:1-17. For example, if you have told a lie; if you have stolen something; if you have lusted after somebody or if you have coveted. This means you are guilty of breaking at least one or more of God's 10 Commandments. Breaking God's commandments makes us sinners. The fact that we are sinners who have broken God's law means that we are accountable to God who is the Lawgiver. Romans 6:23 says that "the wages of sin is death BUT the free gift of God is eternal life in Christ Jesus our Lord" **You must acknowledge that you are a sinner who has broken God's commandments and that you therefore need Jesus in your life.**

2. **REPENT:** "Unless you repent you will all likewise perish" (Luke 13:3), "Repent therefore and be converted that your sins may be blotted out" (Acts 3:19)

**Repenting means: to change your mind; a sincere turning away, in heart, mind and action;**

Therefore God wants you to repent of sinful values and of sinful living. God wants you to decide to follow Him and to make Jesus the Lord of your life.

3. **CONFESSION:** "If we confess our sins. He is faithful and just to forgive us our sins, and to cleanse us from all unrighteousness" (1 John 1:9). "That if you confess with your mouth the Lord Jesus and believe in your heart that God has raised Him from the dead, you will be saved" (Romans 10:9)

**God is a forgiving God. God will forgive any sin that you have done because Jesus died for ALL your sins and to set you free from the bondage of all types of sin in your life.**

4. **BELIEVE:** "For God so loved the world that He gave His only begotten Son, that whoever believes in Him should not perish, but have everlasting life" (John 3:16).

**You must believe that ONLY Jesus can save you and restore your relationship with God. You must believe that Jesus is the ONLY way by which you can have everlasting life and escape from eternal separation from God. You must believe that Jesus died on the cross for you and resurrected from the grave.**

"He came to His own, and His own did not receive him, But as many as received Him, to them He gave

the right to become children of God, even to those who believe in His name" (John 1:11-12)

**By faith, You must receive Jesus as Your Lord & Savior and therefore; you become a child of God; you become born again; you become a Christian; you restore your broken relationship with God**

### **Why Not Make Your Eternal Decision NOW?**

We become born again Christians by GRACE through FAITH or TOTAL TRUST in Jesus Christ as our Lord & Savior (Galatians 3:26) & (Ephesians 2:8,9). Salvation is a FREE gift received through FAITH in Christ.

**PLEASE NOTE: You can choose to pray in your own words. This prayer is a sample prayer and it is only an EXPRESSION of your faith, belief & trust in Jesus. Salvation is by GRACE through FAITH or BELIEVING in Christ Jesus as your Lord & Saviour.**

*"Lord Jesus, I thank You for Your love. I thank You that You died on the cross for me and resurrected so that I may have life through You.*

*I confess Lord that I have sinned against You and today I ask You to forgive me of all of my sins, past present and future. Today I repent and have decided to follow you. Thank you for forgiving all my sins.*

*From this moment, come into my life Lord Jesus & take full control of my life. I want to follow You Jesus and I want to follow Your ways. Save me and from today, make me the person You want me to be.*

*I receive You Lord Jesus right now by faith. I trust You as my Lord and Savior - Amen"*
